Sarita Knabe discovered acting aged 13 with her first major role for a musical in school. With leading roles in further school musical and theatre productions she also entered the TV and film universe by playing a number of small roles. After graduating from high school in 2018 Sarita decided to go abroad for a voluntary social year which she completed in Goa, India. In cooperation with the local work she performed a Goan dance at events as, besides acting, Sarita's second passion is dancing. Since 2006 she has been dancing in a sports club (contemporary, hip-hop, streetdance) and with her group she regularly participates at the "Duisburger Tanztage" (dance festival). Since August 2019 Sarita is back in Germany. She already had a couple of shooting days for a German TV series and finished filming two

short films in January 2020.
